Simplifying the Trip, so Travellers Can Be More Productive

How Much More Work Could Get Done If Expense Reports Weren't Work?

Paper receipts are a pain. But what if travellers could just snap a picture and upload them to their expense reports? What if electronic receipts from airlines, hotels, car rentals, and taxis could prepopulate as itemised charges?

What if expense reports essentially wrote themselves?

SAP Concur not only makes it possible, it makes things faster, better and more accurate—plus it easily integrates with your SAP solution.

A Booking Tool Your Team Will Actually like to Use

Point, click, go. That's how easy things have become, and that's what SAP Concur gives you. Plus tips and tricks that keep travellers within policy, direct them to the very best deals, and connect them to select suppliers for more global flight and hotel choices.

And with more options and easy-to-use tools, your employees won't look or book anywhere else.
