

# Take control with Concur Audit Services

## Let us do the hard work for you

Missing receipts, user error and bookings made outside of policy are just a few things that can cause problems with your business travel and expense (T&E) claims. That's where Concur Audit Services comes in. Our team can carefully review claims making it easier for you to monitor policy compliance, secure preferred supplier rates and reclaim tax.

We audited expense claims from businesses not using Concur and found on average...

- 25%** of claims contained lost VAT
- 29%** of spend was non-compliant with policy
- 37%** of claims were rejected by the audit team
- 42%** of claims contained errors
- 55%** of claims were outside preferred suppliers

**This equates to potential cost savings of 11% across annual T&E spend**
