Service Administration: How it works

- ▶ You'll work with a Concur consultant who'll be familiar with your business. Call on them whenever you need best-practice advice, want to enforce a new compliance rule in your system or need assurance that a change will work as expected and not have any unintended consequences.
- ▶ We conduct monthly meetings to review new Concur features and enhancements with you. Your Concur consultant will highlight features that are a good fit for your business, enabling you to accelerate adoption.
- ▶ We suggest best-in-class configurations to optimise compliance, establish user permissions and define rule settings to help identify policy violations.
- ▶ We assist with basic system configuration and maintenance, such as updating mileage rates or sending email reminders to enforce policies.
- ▶ We assist with identifying usage gaps and formulating strategies to help ensure maximum deployment.
